

## Going back to school- Year 6

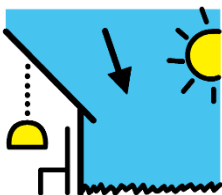

My family and I could not leave my house, unless it was essential, because of Corona virus. I was in my house for a long time. I did not see any of my friends unless it was on a screen.

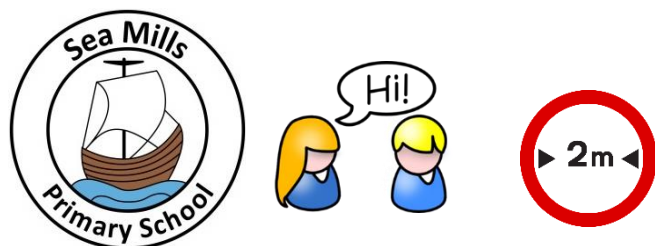

I did not go to school so I did my learning at home. Sometimes this was very difficult because I wanted to do different things. Some of my classmates have been in school when I was at home.

Now the government have said that my family and I can go out again because it is safe now. However, we still have to follow the rules to keep everyone safe such as Social Distancing and regular hand-washing.

This means I can go to school, and see my friends in person. We still have to try to socially distance. Not everything will be the same as before.

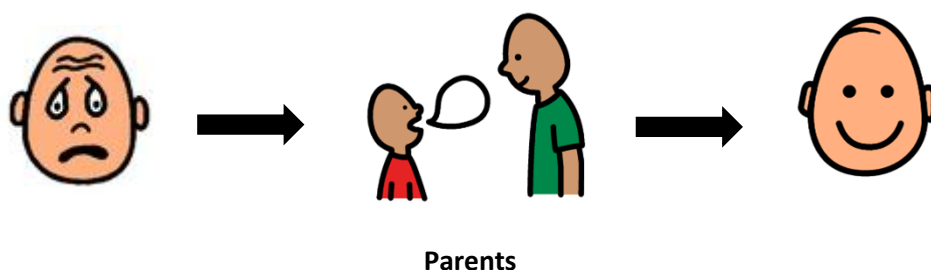

I am a little worried about going out of my house and back to school.

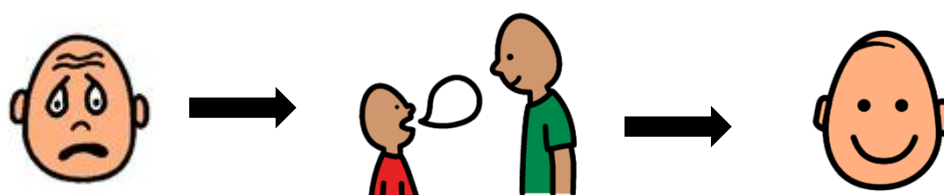

"Have I done enough work?", "Will everything have changed?", "Will I miss being at home?"

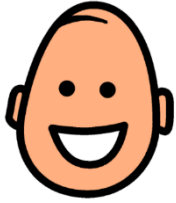

If I get too worried I will speak to my parents, siblings, or someone I can trust, and they will help me to feel calm.

If I get too worried at school I will speak to Mrs Kirley, Mrs Stafford, Miss Ji, a LSA, or someone who knows me, and they will help me to feel calm.

I will be happy to see my friends and teachers again.

Here are my teachers and LSAs.

Mrs Kirley

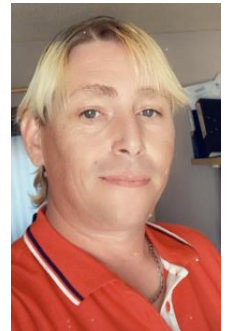

Mrs Stafford

Miss Ji

Mrs Lloyd

Mr Smith

My Classroom looks like this:
