- 22.10.20 - Half Term

HOME LEARNING

In line with our new home learning policy, all learning will continue to be based on the following activities:
Daily reading for 15 minutes and weekly spellings.
Children will also receive spellings to be practiced at home. These are handed out each Friday with the test on the following Friday.

Welcome to Year 5! It has been amazing to see the children brimming with confidence and positivity on their return from Summer. We are keeping a particularly close eye on them at the moment as we manage the return to more normal routines, although we are constantly amazed by their resilience. However should you have any concerns please make an appointment to see me via the office.

As **Athletes** we will have **PE** every **Tuesday and Thursday** so please **remember** your kits. We will still go outside in most weathers so jogging bottoms might be a good

As **Mathematicians** we will start to take the children deeper into understanding place value, before moving on to arithmetic and problem solving.

As **Authors** we are starting by recapping on Year 4 using a beautiful Oliver Jeffers book 'Out of this World', We will be following this with an exploration of the graphic novel 'Way Home'. To assist in writing a discussion text regarding problems facing the homeless.

Please remember to keep reading for 15 minutes every day!

How can science help the homeless?

As **Scientists** we will be considering how different materials can be used to help alleviate the impact of homelessness. We will think about what homeless people need, and how we could help them. We will sensitively discuss the problems associated with homelessness both in our country and other parts of the world.

Artists

We are examining what it means to be **creative**. Look out for some out of this world ideas and outcomes!
