Term 2
Year 6

Miss Stack, Miss Shelper and Ms Wolf

Welcome to Term 2!

This is always an enjoyable term and there are lots of extra curricular activities planned on the countdown to Christmas. We will be continuing to work hard to prepare for our SATS tests in May, but we will also be trying to have lots of fun too!
Our PE days this term will be **Thursdays and Fridays**.

Thank you for your support so far!

IMPORTANT DATES

Monday 2nd November - Back to school
Wednesday 4th November - School photos
Wednesday 4th November - Parents evening

Wednesday 11th November - Parents evening

Monday 23rd - 27th November - Road safety week
Friday 27th November - INSET DAY

Wednesday 9th December - Xmas Fair

Wednesday 16th December - Xmas jumper day and dinner
Friday 18th December - End of term

Homework

Please can I remind you to ensure your child is reading at least 5x a week at home and completing TTRS. Along with this, your child will also be set some extra homework challenges to help prepare them for SATs. There is a timetable on the website to show the questions that need to be completed each week.

If your child struggles with a question, please do write me a note or ask them to speak to me. We will keep on with this process until SATS.

As Mathematicians, the children will be moving on to learn more about and develop their understanding of fractions. We will find equivalent fractions, add and subtract any two fractions or mixed numbers, as well as multiplying and dividing using them.
Later in the term, we will begin to look at converting units using metric measurements.

As Authors, we will be reading the text The Last Alchemist by Colin Thompson. We will be writing persuasive letters to Spinifex to offer help and creating job adverts to look for a new alchemist. We shall be focusing on different sentence structures to form complex sentences and a range of punctuations.

As readers, we will be reading Impossible Creatures by Katherine Rundell. A fantasy novel about two children who are trying to save a hidden magical world.

Where does our food really come from?

This term, Year 6 will be Geographers, Engineers and Artists.

As geographers, we will look at a variety of food from the supermarket and research where the products come form. We will use maps to plot specific places and explore more about the different continents.

As engineers, we will learn about food preparation and then get the chance to do some cooking using locally produced ingredients.

As artists, we will look at artists that have used food as a stimululs and create our own work inspired by them.
